SUMMARY

B.Tech Information Technology student (pre-final year) at V.S.B. Engineering College, Karur with a strong foundation in Java, Python, and Web Development. Skilled in both frontend and backend development with hands-on project experience using HTML, CSS,. Certified in Java (NPTEL), AWS, and Web Development (Forage), Java Foundation Achievement (Infosys Springboard). Strong creative, analytical, and problem-solving skills with a proven ability to work effectively as a team member in technical and innovative projects.

INTERNSHIP

Full Stack Web Developer Intern – Fantasy Solutions | June 2024 – July 2024, Remote

- Gained hands-on experience in frontend and backend development.
- Built and tested web applications using HTML, CSS.

Infosys Springboard Virtual Internship 6.0

EDUCATION

Information Technology – V.S.B. Engineering Collge, Karur (2023–2027) | **CGPA: 7.9**

Maxwell Matriculation Higher Secondary School – HSC (2023) | 73.8% SSLC (2021)(All pass)

PROJECTS

Library Management System

Developed a Library Management System to automate book tracking, user registration, borrowing, and returning. Implemented reporting features for improved efficiency and accuracy of library operations.

RiceYield AI – Farm-Level Rice Yield Prediction

Developed an AI-based MERN stack web application for farm-level rice yield prediction. Integrated machine learning models to analyze agricultural parameters such as soil quality, weather conditions, and farming practices to accurately forecast rice yield. Built a responsive frontend using React.js, a robust backend with Node.js and Express.js, and MongoDB for data management, enabling farmers to make data-driven decisions for improved productivity.

CampusTrack – Lost and Found Application

Developed a campus-focused Lost and Found web application to help students and staff report, search, and recover lost items within the campus premises. Implemented features including item posting with descriptions and images, category-based filtering, real-time notifications, and a claim verification system to ensure secure item recovery.

SKILLS

Programming: Java, Python

Web Development: HTML, CSS,

Other: UI/UX Prototyping (Figma), Teamwork, Leadership, Decision Making

CERTIFICATIONS

- Programming in Java – NPTEL
- Software Testing – NPTEL
- TATA Certification – Forage
- Web Development
- Java Foundation – Infosys Springboard
- Infosys Springboard Virtual Internship 6.0
